However, in some of the cases out of 162 cases where in principle approvals had been given the State Governments have initiated land acquisition proceedings. Various representations received in this regard have been placed before the Empowered Group of Ministers (EGOM). The Ministry of Rural Development is currently formulating a revised National Rehabilitation Policy with the objective to minimize displacement and to promote, as far as possible, non-displacing or least displacing alternatives, ensure adequate rehabilitation packages and expeditious implementation of the rehabilitation process with the active participation of the displaced persons. As and when the new policy is implemented, it will apply to acquisition of land for industrial projects including SEZs.
